

PDS review: UH Photometry

[Report Spam](#)

Updated Aug 19th, 2014

- there is no general high-level text file describing what is in the archive. are the data in those ISO files the same as those in the other folders? Seems that tables with results are in higher level folders, raw data in ISO. But then the tables are present in the subfolders.
- 1997 is astrometry, not photometry
- What am I supposed to see in the fits files?
- Units of pixel values?
